

Make an appointment with your dentist for your child

Dental care is essential at every age. Healthy deciduous teeth are very important for the normal development of permanent teeth.

Benefit from the **free DE2 consultation** for children aged **30 to 36 months**.

Contact the dentist of your choice to schedule an **appointment** during this age period for a DE2 consultation.

Your child's **teeth** and **dental occlusion** will be **examined** and you will receive **advice on oral health prevention**.

Continue to take your child to the dentist at least **once a year**.

Help your child **prevent** oral diseases and keep their teeth healthy.
